

Gold Coast, Queensland

Southport Central seamlessly unites Residential, Commercial and Retail space over three towers and seven low rise buildings.

The three towers of Southport Central will be a striking tribute to a new direction in the evolution of one of the Gold Coast's most established central precincts.

Currently the largest mixed use development in Australia, Southport Central is a \$700 million development that is leading the reinvention of Southport.

Between the natural confines of the Broadwater and mountainous hinterland, Southport Central expresses the Gold Coast's dynamic global identity through timeless design.

The Emergency Warning and Intercommunication System is an I-2000 network comprising 160 amplified zones with 180 Warden Intercom Phones housed in 13 cabinets in 4 locations.

The fire detection system is a 7 Notifier AFP-2800 FIP Network with a total of 34 loops, along with over 3,000 System Sensor Photo-Optical, Thermal and Acclimate Detectors, Input/Output modules and System Sensor sprinkler monitoring equipment.
